

## 2010 Beverage Committee Report

Chairs: Terry and David West

We relied on the 2009 Beverage Committee Report. At the dinner, duty was light and 3 or 4 people per shift would have been ample. However, each parent joining this committee needs to commit to at least one beverage pickup.

### Beverages

Honest Tea ditto

OWater ditto

Market Basket Donated to another Supper committee.

Supper Chairs Kris and Pat got Dunkin' Donuts coffee and supplies. It appeared well under 100 cups of coffee were served. Probably 2 lbs reg (~90 cups) and 1 decaf would be fine. We ran three percolators, two for regular and one for decaf. The percolators should be started 45 mins ahead of the dinner. The old beat-up aluminum ones from the school cafeteria seem to heat faster than the shiny attractive ones we borrowed from the CSA. Since they draw a lot of current, only one percolator can be plugged in per wall outlet. Two of the percolators were placed on the floor. Extension cords would have allowed them all to be on the same table.

Tea was made available. A few cups were served.
